

Net Energy Metering (NEM) Program

Applicability: Customers enrolled in PG&E's Net Energy Metering program (PG&E NEM) are automatically enrolled in KCCP's NEM Program (KCCP NEM).

Rates: When a KCCP NEM Customer's system produces energy in excess of a KCCP NEM Customer's usage, the excess generation will be credited at the rate indicated by the Customer's otherwise applicable KCCP schedule (OAS) ¹. When a KCCP NEM Customer consumes energy in excess of the KCCP NEM Customer's system production, the excess consumption will be charged at the rate indicated by the KCCP NEM customer's OAS. All other charges under the KCCP NEM Customer's OAS continue to apply, including PG&E charges. Please contact PG&E for the terms and conditions of the PG&E's NEM program.

Billing: KCCP nets all of a KCCP NEM Customer's charges and credits on a monthly basis (Monthly Settlement). For Monthly Settlements that result in a net credit, the credit will be rolled over to the next billing period. For Monthly Settlements that result in a net charge, the amount of the net charge will be assessed and payable for the corresponding billing period.

Cash-Out: In July of each year, or if KCCP service is terminated, if a KCCP NEM customer's total credit balance is over \$100, KCCP will mail a check for credit balances up to \$5000 to the account address. Payments in excess of \$5000 are subject to KCCP approval.

¹ For example, Rate Schedule E-1 or E-TOU.
